FOR IMMEDIATE RELEASE

STARZ REPORTS FIRST QUARTER 2016 FINANCIAL RESULTS

Englewood, Colo. - April 28, 2016 - Starz (NASDAQ: STRZA, STRZB) today reported first quarter 2016 results. Highlights include (1):

Financial Highlights:

- Reported consolidated revenue of \$431.9 million; Adjusted OIBDA (2) of \$127.1 million; operating income of \$114.1 million and fully diluted earnings per share of \$0.65
- Starz Networks reported revenue of \$339.9 million; Adjusted OIBDA of \$116.8 million and operating income of \$105.3 million

Operating Highlights:

- Increased STARZ subscriptions by 400,000 to a new high of 24.0 million since December 31, 2015 and STARZ ENCORE subscriptions by 200,000 to 32.4 million since December 31, 2015; combined subscriptions of 56.4 million
- Launched all-in-one STARZ app for both streaming and downloadable content with traditional TV Everywhere access and new digital retail
 partners Apple and Google at \$8.99 per month
- Unveiled new STARZ master brand strategy and repositioned ENCORE networks as STARZ ENCORE under the STARZ umbrella
 - STARZ ENCORE programming lineup now includes past seasons of STARZ Original series
- Rebranded STARZ networks with new on-air look and "STARZ: Obsessable" consumer marketing campaign
- Starz Digital and Starz Worldwide Distribution licensed "Power" to Netflix in the UK; "Power" and
 "Ash vs Evil Dead" to Hulu in Japan; "Ash vs Evil Dead" and "The Girlfriend Experience" to yes in Israel and Mediaset in Italy

Programming Highlights:

- "Outlander" second season premiere episode set a STARZ record for season premiere viewing by a STARZ Original series (3)
- "The Girlfriend Experience" opened strong with most weekend viewers since "Outlander" debuted in summer 2014

Chris Albrecht, Starz Chief Executive Officer, commented, "During the first quarter, Starz continued to execute against our growth strategy for the business by adding 400,000 STARZ subscribers to reach a new high of 24 million. Also during the first quarter, ENCORE subscriptions increased by 200,000 to 32.4 million for combined subscriptions of 56.4 million for both networks. We continued to see successful results from our highly-rated, award-winning and diverse original programming. 'Outlander' and 'The Girlfriend Experience' garnered very strong critical acclaim and viewership, with the second season of 'Outlander' doubling its first season premiere and becoming the most-watched season premiere telecast ever for a new or returning STARZ Original series ⁽³⁾."

"Early in the second quarter, Starz introduced an exciting way for consumers to access our premium brands by launching a digital retail service and TV Everywhere offering that positions STARZ as the only premium pay TV app in the market with both streaming and download functionality. We also successfully launched a new STARZ master brand strategy, repositioning the ENCORE suite of channels under STARZ and introducing them as the STARZ ENCORE networks. These strategic moves created a powerful combination of premium pay TV movie and original

programming, better positioning us to work with our core distributors to tap into the STARZ ENCORE households that do not subscribe to STARZ."

Consolidated

Revenue decreased 4% to \$431.9 million, Adjusted OIBDA decreased 18% to \$127.1 million and operating income decreased 20% to \$114.1 million.

Starz Networks

Revenue increased 2% to \$339.9 million as a result of rate increases from various distributors partially offset by lower average subscriptions. Adjusted OIBDA decreased 10% to \$116.8 million due to an increase in programming costs, advertising and marketing costs associated with "The Girlfriend Experience," litigation related costs and payroll costs partially offset by the increase in revenue. Operating income decreased 11% to \$105.3 million. Cash paid for investment in films and television programs increased \$12.0 million to \$81.1 million.

Starz Distribution

Revenue decreased 15% to \$92.7 million and Adjusted OIBDA decreased \$15.8 million to \$10.6 million primarily as a result of licensing certain STARZ Original series titles to Netflix and Amazon in the first quarter of 2015. Operating income decreased \$15.7 million to \$9.7 million. Cash paid for investment in films and television programs decreased \$24.5 million to \$15.1 million due to timing of payments under our distribution agreement with The Weinstein Company.

Share Repurchases

From February 1, 2016 through April 30, 2016, 2.7 million shares of common stock were purchased at an average cost per share of \$24.82 for total cash consideration of \$67.1 million. Since trading began on January 14, 2013, Starz has repurchased 28.9 million shares at an average cost per share of \$28.34 for aggregate cash consideration of \$819.6 million. These repurchases represent 23.8% of the shares outstanding as of January 14, 2013. Starz currently has \$380.4 million remaining under its share repurchase authorization. Under its share repurchase program, Starz may acquire its common stock from time to time, through open market transactions and privately negotiated transactions. The share repurchase program may be discontinued at any time.

FOOTNOTES

- (1) Starz's CEO Chris Albrecht and CFO Scott Macdonald will discuss these highlights and other matters during the Starz earnings conference call, which will begin at 5:00 p.m. (ET) on April 28, 2016. NON-GAAP FINANCIAL MEASURES

This press release includes a presentation of Adjusted OIBDA, which is a non-GAAP financial measure, together with a reconciliation to operating income, as determined under GAAP. We evaluate performance and make decisions about allocating resources to our operating segments based on financial measures such as Adjusted OIBDA. We define Adjusted OIBDA as revenue less programming costs, production and acquisition costs, home video cost of sales, operating expenses and selling, general and administrative expenses, but excluding all stock compensation expense. Our chief operating decision maker uses this measure of performance in conjunction with other measures to evaluate our operating segments' performance and make decisions about allocating resources among our operating segments. We believe that Adjusted OIBDA is an important indicator of the operational strength and performance of our operating segments, including each operating segment's ability to assist in servicing our debt and to fund investments in films and television programs. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between operating segments and identify strategies to improve performance.

This measure of performance excludes stock compensation and depreciation and amortization that are included in the measurement of operating income pursuant to GAAP. The primary material limitations associated with the use of Adjusted OIBDA as compared to GAAP results are (i) it may not be comparable to similarly titled measures used by other companies in our industry, and (ii) it excludes financial information that some may consider important in evaluating our performance. We compensate for these limitations by providing a reconciliation of Adjusted OIBDA to GAAP results to enable investors to perform their own analysis of our operating results. Accordingly, Adjusted OIBDA should be considered in addition to, but not as a substitute for, operating income, income before income taxes, net income, net cash provided by (used in) operating activities and other measures of financial performance prepared in accordance with GAAP. Please see the Reconciling Schedule below for the applicable reconciliation.

RECONCILING SCHEDULE

The following table provides a reconciliation of Adjusted OIBDA for Starz Consolidated, Starz Networks and Starz Distribution to operating income calculated in accordance with GAAP for the three months ended March 31, 2015, June 30, 2015, September 30, 2015, December 31, 2015 and March 31, 2016, respectively.
